

# New Jersey Quantum Matter and Information Forum

A Rutgers/Princeton initiative to foster connections and collaborations in the Garden State

It's time to register for New Jersey Quantum Matter and Information Matter Forum! The first semesterly event will be held at Princeton on Saturday 9th April 2022.

Here is the planned itinerary:

- 10:00 - 10:25 : Arrive at Jadwin Hall, Princeton
- 10:30 - 11:15 : Invited speaker: Prof. Piers Coleman (Rutgers)
- 11:45 - 12:30 : Invited speaker: Prof. Sanfeng Wu (Princeton)
- 12:45 - 13:30 : Catered lunch
- 13:35 - 15:35 : Small room graduate student talks
- 15:45 - 17:15 : Informal review paper discussions and social time
- 17:30 - 17:45 : Closing remarks and goodbyes

Some of us will be staying for dinner in Princeton, so feel free to come with us!

Please join us to make this first event a success. The goal of this semesterly forum is to foster long-term friendships within the quantum condensed matter physics research community. Hopefully, we can all learn from each other and maybe even start some collaborations together!
